FRANCHISE READINESS AUDIT · TIER 2 & TIER 3

You've seen where you stand. Now see *why*.

11 questions can only see so far in Tier 1 audit. The Readiness Report (Tier 2) and the Roadmap (Tier 3) show how deep each gap runs — and exactly what to do about it.

THE FULL AUDIT JOURNEY

Three tiers. Each one goes deeper.

Readiness Roadmap

61 questions · ₹5,999

COMING NEXT · TIER 2 READINESS REPORT

A full diagnosis across 44 questions.

Final readiness score

One weighted score across seven pillars. It's final — it never changes as you go further.

Gaps ranked by cost

Ordered by what each gap costs your readiness — not simply by your lowest score.

A diagnosis per pillar

What's true today, why it matters to a franchisee, and what the next level looks like.

Legal non-negotiables

The conditions an investor's due diligence will surface, listed whether or not they capped you.

Category comparison

For F&B, jewellery and services: how brands like yours typically compare at this stage.

₹1,999

Diagnosis only, by design. Advice comes in Tier 3, where the financial detail lives.

COMING NEXT · TIER 3 READINESS ROADMAP

From diagnosis to a plan you can act on.

Franchisee economics

What a partner actually earns after your fee and royalty, and how long payback runs — rated Green, Amber or Red.

90-day roadmap

Specific actions with timeframes and deliverables, ordered by what has to come first.

Model recommendation

FOFO, FIFO, FOCO, FICO or a JV route — the structure that fits how you want to grow, and why.

Structure & territory

Single-unit, area development or master; protected radius, pin-code or city exclusivity.

Fee & royalty benchmarks

From deals we have actually closed — shown as ranges, with the sample size always stated.

Analyst-reviewed

Every roadmap is checked by our team before it reaches you. ₹5,999.

HOW THE AUDIT SPEAKS

Plain, specific and honest — never flattering.

"

An outlet you own pays no franchise fee and no royalty, so the margin you see is not the margin a partner would see.

READINESS REPORT · UNIT ECONOMICS

"

The business still runs through you — a franchise network multiplies demands on a founder who is already the bottleneck.

TIER 1 RESULT · WEAKEST PILLAR

HOW WE BUILT IT

Four rules the audit never bends.

1

Diagnose before advising

Tiers 1 and 2 describe where you stand. Advice only comes once we have the financial detail to give it properly.

2

Ranked by cost, not by score

A gap in a 20% pillar outranks a bigger gap in an 8% one. Fix in this order to recover the most ground.

3

Ranges, never averages

Benchmarks come from closed deals, at category level, with the sample size stated every time.

4

Honest when data is thin

If we haven't closed enough deals in your category to compare, we say so rather than dress up a pattern.
